INDEX OF AUTHORS.

PAGE

Ascherson, W. L.
Case of idiopathic muscular atrophy (facio-scapulo-humeral type) 141

Batten, F. E.
Cases of myopathy, infantile type 147, 148
Myopathy, pseudo-hypertrophic type 146
On the diagnostic value of the position of the head in cases of cerebellar disease 71
Two cases of muscular atrophy of uncertain origin 151
Typical case of peroneal muscular atrophy 149

Batten, F. E., and Fletcher, H. Morley.
Case of progressive muscular atrophy of spinal origin in a girl aged 11 years; with autopsy 473, 615

Beyerman, D. H., and Langelaan, J. W.
On the localisation of a respiratory and a cardio-motor centre on the cortex of the frontal lobe... 81

Bishofswerder, L.
Contribution à l'étude de l'anatomie pathologique de la syringomyélie (Review) 139

Bolton, Charles.
Pathological changes in the medulla oblongata in acute diphtheritic toxæmia (Review) 283

Bolton, J. S.
The functions of the frontal lobes 215
The histological basis of amentia and dementia (Review)... ... 277

PAGE

Brachet, Auguste.
Pathologie mentale des rois de France (Review) 605

Bramwell, Byrom.
Case of hæmorrhage into central region of spinal cord 301
Case of hæmorrhage into latent syringomyelia 301
Case of removal of cerebral tumour 300
Case of tabes with optic atrophy 300
Case of tabes without ataxia 301

Bramwell, J. Milne.
Hypnotism, its history, practice and theory (Review) 602

Broadbent, Walter.
Cerebral embolus during an epileptic fit 447

Broadbent, W. H.
Hughlings Jackson as pioneer in nervous physiology and pathology 305

Bruce, Alexander.
Case of paralysis of serratus magnus 304
Localisation of function in the lumbo-sacral part of the cord ... 298

Buzzard, E. Farquhar.
Dermoid tumour of brain 612
Descending spinal fibres of a lumbar posterior root 612
On the pathology and bacteriology of Landry's paralysis 94
Progressive muscular atrophy in a young woman 472

Buzzard, E. Farquhar, and Collier, James S.
The degenerations resulting from lesions of posterior nerve roots and from transverse lesions of the spinal cord in man. A study of twenty cases 559

Buzzard, Thomas.
Case illustrating an ileo-psoas type of progressive muscular dystrophy 149

Caley, H. A.
Hydatid of a brain-cyst wall: sections of cyst wall; scolices from fluid 613

Clarke, J. Michell.
A case of Erb's juvenile dystrophy associated with bilateral enlargement of the parotid and submaxillary glands 202
Case of juvenile type of muscular atrophy with simultaneous enlargement of parotid glands 143
Diphtheritic paralysis... 612
Gumma of cord in lumbar region 612
Internal pachymeningitis of cord in hereditary syphilis 613

Clouston, T. S.
Cases of exophthalmic goitre with mental disease 300

Collier, James S.
A case of (?) disseminate sclerosis 471
Two cases of peroneal atrophy 149

PAGE

Collier, James S., and Buzzard, E. Farquhar.
The degenerations resulting from lesions of posterior nerve-roots and from transverse lesions of the spinal cord in man. A study of twenty cases 559

Cunningham, D. J.
Text-book of anatomy (Review) 461

Dean, G., and Usher, C. H.
Experimental research on the course of the optic fibres 524

Feindel, E., and Meige, H.
Les tics et leur traitement (Review) 462

Ferrand, Jean.
Essai sur l'hémiplégie des vieillards (Review) 459

Flatau, E.
Handbuch der pathologischen Anatomie des Nervensystems (Review) 285, 595

Fleming, R. A.
Case of cerebral compression 303

Fletcher, H. Morley, and Batten, F. E.
Case of progressive muscular atrophy of spinal origin in a girl aged 11 years; with autopsy 473, 615

Fletcher, W. M.
Tetanus dolorosus, and the relation of tetanus toxin to the sensory nerves and the spinal ganglia 383

Foerster, Otfrid.
Die Physiologie und Pathologie der Coördination, eine Analyse der Bewegungsstörungen bei der Erkrankungen des Centralnervensystems und ihre rationelle Therapie (Review)... 138

Gardner, James, and Thorburn, William.
A case of tumour of the axis, illustrating the functions of the third spinal segment 120

Gibson, G. A.
Case of right homonymous hemianopia 302

Gordon, Holmes.
Three cases of unilateral tremor in cerebral lesions 470

Grant, Dundas.
Case of hemianæsthesia affecting the skin and special senses with crossed amblyopia and achromatopsia 469
Case of paralysis of the palate and larynx 468
Case of paralysis of vocal cord with signs of involvement of the sympathetic nerve 470

PAGE

Greenfield, W. S.
Case of acromegaly 303

Halliburton, W. D., and Mott, F. W.
The coagulation temperature of cell globulin and its bearing on hyperpyrexia (Review) 281

Harris, Wilfred.
Post-diphtheritic chronic bulbar paralysis, and its distinction from myasthenia (with bibliography) 543
Prefixed and postfixed type of brachial plexus 613

Harris, Wilfred, and Low, V. Warren.
Case of Erb-Duchenne paralysis treated by operation 465
Case of infantile paralysis of the shoulder treated by operation ... 466

Head, Henry.
A case of pseudo-hypertrophic paralysis in an adult 146

Hepburn, D., and Waterston, D.
Shape of gray matter in spinal cord of porpoise 299

Horsley, Victor.
Three cases of cerebellar tumour after operation with reference to the question of cerebellar compensation 467

Hutchison, R.
Case of myopathy, Erb's juvenile type 146

Jackson, J. Hughlings.
Bibliography... 356
On the study of diseases of the nervous system 367

Janet, Pierre.
Les obsessions et la psychasthénie (Review) 449

Langelaan, J. W., and Beyerman, D. H.
On the localisation of a respiratory and a cardiomotor centre on the cortex of the frontal lobe 81

Langley, J. N.
The autonomic nervous system 1

Leredde, L. E.
La nature syphilitique et la curabilité du tabes et de la paralysie générale (Review) 609

Low, V. Warren, and Harris, Wilfred.
Case of Erb-Duchenne paralysis, treated by operation 465
Case of infantile paralysis of the shoulder, treated by operation ... 466

Lundie, R. A.
Case of infantile oculo-facial palsy 302

PAGE

McDougall, W.
The nature of inhibitory processes within the nervous system ... 153

Meige, H., and Feindel, E.
Les tics et leur traitement (Review) 462

Mott, F. W.
Archives of neurology from the pathological laboratory of the London County Asylums, Claybury, Essex (Review) 268
Note upon the choline test for active degeneration of the nervous system (Review) 284
Tabes in hospital and asylum practice (Review) 268
The prevention of dysentery in the London County Asylums (Review) 282

Mott, F. W., and Halliburton, W. D.
The coagulation-temperature of cell-globulin and its bearing on hyperpyrexia (Review) 281

Oppenheim, H.
Die Geschwülste des Gehirns (Review) 592

Ormerod, J. A.
Case of myopathy, Erb's juvenile type 144

Pick, A.
Clinical studies: (1) On "dreamy mental states" as a permanent condition in epileptics. (2) On the pathologically protracted duration of impressions on the senses as a cause of various disturbances of the sensory perception and especially of the sight. (3) On reduplicative paramnesia 242

Robertson, W. Ford.
Bacteriological, histological, and experimental investigations into the pathology of general paralysis 298

Russell, J. S. Risien.
Case of myopathy (idiopathic muscular atrophy), coming on late in life (facio-scapulo humeral type) 143

Smith, W. C.
The range of immediate association and memory in normal and pathological individuals (Review) 282

Spiller, Gustav.
The mind of man; a text-book of psychology (Review) 288

Spiller, W. G.
A report of two cases of paraplegia occurring in variola, one being a case of anterior poliomyelitis in an adult 424

Stewart, T. Grainger.
A case of diplegia and myoclonus 466

Stoddart, W. H. B.
The evolution of consciousness... 432

Sutherland, G. A.
Chorea and Graves' disease 210

PAGE

Taylor, James.
Case of myopathy with muscular twitching 151

Thomson, H. Campbell.
Associated movements in hemiplegia; their origin and physiological significance 514
Hereditary spastic paraplegia. Its relation to Friedreich's disease and its claim to be considered as a clinical entity 412

Thomson, John
Case of cerebellar disease 302
Case of fine general tremor 302

Thorburn, William, and Gardner, James.
A case of tumour of the axis, illustrating the functions of the third spinal segment 120

Tredgold, A. F.
Amentia (idiocy and imbecility) (Review) 274

Turner, John.
An account of the nerve cells in thirty-three cases of insanity, with special reference to those of the spinal ganglia 27
Notes on the minute structure of the human caudate nucleus and optic thalamus 400

Usher, C. H., and Dean, G.
Experimental research on the course of the optic fibres 524

Vires, J.
Maladies nerveuses, diagnostic, traitement (Review) 291

Waterston, D., and Hepburn, D.
Shape of gray matter in spinal cord of porpoise 299

Watson, Chalmers.
On "stringhalt" and "shivering" in horses. A study in comparative neuro-pathology 192

Watson, G. A.
The pathology and morbid histology of juvenile general paralysis (Review) 279

White, W. Charles.
Lesion of the brachium pontis with division of the trigeminal and facial nerves 440

Williams, Leonard.
A case of infantile hemiplegia of the right side, with paralysis agitans beginning on the left side 467

Williamson, R. T.
Note on "toxic" degeneration of the lower neurones simulating peripheral neuritis 206

Wright, Hamilton.
Beri-beri in monkeys 488

INDEX OF SUBJECTS.

PAGE

Acromegaly, case of. W. S. Greenfield 303

Amentia (idiocy and imbecility). A. F. Tredgold (Review) 274
and dementia, the histological basis of. J. S. Bolton (Review) ... 277

Anatomy, pathological, of nervous system, handbook of. E. Flatau, L. Jacobson and L. Minor (Review). 285, 595
text-book of. D. J. Cunningham (Review) 461

Association, range of immediate, and memory in normal and pathological individuals. W. C. Smith (Review) 282

Autonomic nervous system. J. N. Langley 1

Axis, tumour of, illustrating functions of third spinal segment. W. Thorburn and J. Gardner 120

Bacillus, resembling Klebs-Löffler bacillus in general paralysis. W. Ford Robertson 298

Bacteriology and pathology of Landry's paralysis 94

Beri-Beri in monkeys. Hamilton Wright 488

Brachium pontis, lesion of, with division of the trigeminal and facial nerves. W. C. White 440

Brachial plexus, prefixed and postfixed, types of. Wilfred Harris ... 613

Brain, dermoid tumour of. E. F. Buzzard 612
tumours of. H. Oppenheim (Review) 592

Bulbar autonomic system. J. N. Langley 2
paralysis, post-diphtheritic chronic, and its distinction from myasthenia (with bibliography). Wilfred Harris 543

Cardio-motor and respiratory centres, localisation of, on frontal cortex. J. W. Langelaan and D. H. Beyerman 81

Caudate nucleus and optic thalamus, minute structure of. John Turner 400

Cell-globulin, coagulation temperature of, and its bearing on hyperpyrexia. W. D. Halliburton and F. W. Mott (Review) ... 281

Cerebellar disease, diagnostic value of position of head in. F. E. Batten 71
disease, case of. John Thomson 302
tumour, three cases of, after operation, with reference to the question of cerebellar compensation. Victor Horsley 467

Cerebral compression, case of. R. A. Fleming 303
embolus during an epileptic fit. Walter Broadbent 447
tumour, case of removal of. Byrom Bramwell 300

Choline test for active degeneration of nervous system. F. W. Mott (Review) 284

Chorea and Graves' disease. G. A. Sutherland 210

Consciousness, the evolution of. W. H. B. Stoddart 432

Convulsions, Hughlings Jackson on. W. H. Broadbent 310

Coördination, Physiologie und Therapie der. O. Foerster (Review) ... 138
